

DIRECT DEPOSIT OR UTAH EPPICARD™ MASTERCARD®

Receive child support payments faster and easier

How is Direct Deposit different than the Utah EPPICard™ MasterCard?

With Direct Deposit your payments are deposited into your bank account. You would use the funds deposited the way you use any other money in your account. With the Utah EppiCard™ MasterCard, your payments are held in a separate account used only for your payments. You use your money by using your card. You can make purchases or withdraw cash using the EPPICard™ MasterCard.

Are there any fees for using the EPPICard™ MasterCard?

There are no fees for getting money from a teller at a bank that displays the MasterCard brand mark, and there is never a charge for using your card to make purchases at any merchant that accepts MasterCard. There is a transaction fee of \$0.85 each time you use an ATM to withdraw money and a \$0.50 fee for a balance inquiry.

Why do you need my Social Security Number?

Based on section 466(a)(13) of the Social Security Act [42 U.S.C. 666(a)(13)] it is mandatory for a State's child support enforcement program to request an individual's social security account number in order to locate individuals for purposes of establishing paternity and establishing, modifying, and enforcing support obligations and payment processing.
