

**ELECTRONIC FUNDS TRANSFER/ELECTRONIC DATA INTERCHANGE (EFT/EDI)  
FOR EMPLOYERS**

The Office of Recovery Services is able to receive child support payments using EFT/EDI. We accept ACH credit records in the NACHA approved, standardized CCD+ or CTX format for child support. Your bank or technical support should be able to inform you if these options are available for your business.

If you are able to remit child support payments using either a CCD+ or CTX format, please contact our office so that we may complete a case reconciliation and confirm your Employer Identification Number (EIN). When this is complete, we will provide you with our bank account information, and ask that you notify us when the first file is sent.

We thank you for your interest in EFT/EDI services. If you would like to begin the reconciliation process, obtain additional information, or have any questions, please contact us at:
